

## Support Letter

### Snohomish Conservation District Assessment Proposal

**Dear Snohomish Conservation District and Interested Parties,**

The purpose of this letter is to show support for the proposed assessment of \$5.00 per parcel beginning in 2009 to fund Snohomish Conservation District services. I understand that the Stillaguamish Clean Water District is excluded from this assessment because a portion of the existing Clean Water District assessment is already allocated to the SCD for work in the Stillaguamish watershed.

I have reviewed the proposal and feel that the assessment funding is important for allowing the Conservation District to provide beneficial services to landowners in Snohomish County.

I support your submittal of the assessment proposal to the Snohomish County Council and hope that they will approve it as proposed.
