Asking Questions

Please utilize the Q&A for your questions throughout the presentation.

You may use the chat for technical assistance needs.

We are recording this class.

Today's Flow

- **Joe Crumbley** from Snohomish Conservation District will cover your gardening goals, basic steps for achieving them, and tips on what you can plant right now
- **Gardening Check List**
- Questions & hopefully answers

FALL 2021
Garden & rain barrel programs

Rain garden self-guided tour

Make a date this fall to tour north Everett rain gardens. These gardens do the work in your yard by collecting, absorbing and filtering the rain that runs off your roof. Be inspired while exploring a great alternative to lawn. Once registered, you'll receive a map of local rain gardens to visit at your convenience. If you like what you see, sign up to receive further information about the upcoming 2022 rain garden rebate program.

Gardening series

Yard care in a changing climate

Tues., Sept. 28 • 6 – 7:30 p.m.
Online

Join us as we discuss ways to live with our ever-changing climate. Learn practical steps to protect your yard and minimize the effects of extreme dry and wet weather cycles. Explore how plants try to adapt and some best plant choices and practices for our changing landscapes and climate.

Warm up to winter gardening

Tues., Oct. 5 • 6 – 7:30 p.m.
Online

Did you recently start gardening or make changes in your yard? Discover what improvements you can continue to do over the next couple of months. Learn about fall and winter crops that will keep your garden in good shape through the wet and cold season. Leave with a checklist of good indoor activities to get you ready for spring.

Once registered, you'll receive a link to these fun, informational and FREE workshops: everett.eventbrite.com
